OLD BUSINESS

1-Pre-construction mandatory site meeting was held Tuesday, May 2nd at 9:30AM with Engineer, Contractor, Conservation District and Township. The Krell property driveway was looked at and it was decided that a pipe installation and ditch enhancement would be the best solution to the water drainage problem there stemming from the PennDOT pipe crossing under State Route 402 and ending in the same area. Jeff from Wayco provided the additional cost estimate. Ellen Enslin from the Conservation District indicated they could add the additional cost to the project pending approval by the District and QAB Board. Since then, the additional costs have been approved and the Engineer has prepared the contract amendment which was executed and returned to the District. A Change Work Order has been provided by the Engineer to be executed today between Wayco and Porter Township. Motion to approve, Vote.
